Equip-Test is a High-Tech Company involved in Development, Manufacturing and Worldwide Support of Test Probes, Test Fixtures and Test Systems for PCB and Cable-Harness Testing. Our Innovative Test Solutions represent the Highest Quality Standards Worldwide-without compromise. Equip-Test tracks daily operation of all production plants in a completely integrated digital production system which meets with the latest Industry 4.0 Standards. Our Company has two R&D Locations, supported with four fully equipped Manufacturing Plants and an additional two Local Technical Hub for software development, assembly and on-site installations. The key of our success is in our loyal, well-trained and highly motivated colleagues, who are the best in the field of their work. Our common goal is to have Happy Customers.

Test Probes / Sockets / Receptacles

- Lead-free Probes
- ICT / FCT Test Probes
- Multipurpose Test Probes
- Micro Probes
- High-Current Probes
- Interface Probes
- Battery Probes
- Switch Probes
- Radio-Frequency Test Probes

Test Fixtures / Fixture Kits / Interfaces

- ICT / FCT Fixtures
- Mechanical Fixture Kits
- Hand Press Fixture Kits
- Vacuum Fixture Kits
- RF Fixture Kits
- In-line Fixtures
- Custom Built Fixtures
- Interface Connectors
- Fixture Customizing

Jigs & Cable-Harness Testers

- Threaded Test Probes
- Hand Jigs (Straight / Angled)
- Mountable Jig Modules
- Cable Connector Test Jigs
- High-Current Test Jigs
- Assembly Jigs / Fixtures
- Test Jigs with Pneumatic Locking Levers
- Insulated / Shielded Jigs
